CCS LTC — Batch 5: Types, Blocks, Carry-over & Fresh Recruits

Reviewed 27 October 2026. Educational restatements, not an individual sanction.

Important dates first

23 September 2008 — OM 31011/4/2008-Estt.(A): fresh-recruit origin, cited by the 2025 official consolidation; standalone original not independently retrieved.

26 September 2014 — OM 31011/7/2013-Estt.(A-IV): fresh-recruit FAQs, cited by current official guidance; standalone original not independently retrieved.

18 May 2015 — OM 31011/4/2007-Estt.(A-IV): same-HQ/Home Town and Delhi/NCR clarification, reproduced in 2025 FAQ 19–20; standalone original not independently retrieved.

1 July / 3 September 2025 — Official DoPT FAQ / consolidation issue dates, NOT blanket new commencement dates for every older entitlement.

27 October 2026 — Review date. Current regular four-year block: 2026–2029; Home Town sub-blocks 2026–27 and 2028–29.

31 December 2026 — Normal Rule 10 grace for unused 2024–25 Home Town / eligible 2022–25 All India: outward journey deadline, with All-India proviso where Home Town entitled.

One year / calendar-year end — Fresh recruits: complete service gate first; unused annual occasion lapses at 31 December, NO fresh-recruit grace.

30 June 2005 — EXPIRED — Rule 10 GID (1) one-time 2002–03 extension: audit history only; not a current benefit.

Scope, corrections and evidence limits

Scope: master chapters 16–18; Rules 8(a), 8(b) and proviso, 8(c), 9, 10 and proviso, 11; FAQ 13–20 and 64–70; every row and explanation in Tables 1–5. FAQ 6–7 and Rule 6 recalled only for destination/family context.

Corrections to master: normal HQ-different entitlement is two Home Town LTCs OR one Home Town plus one All India, not an extra third LTC or a compulsory All-India trip. Table 2 illustrates the mixed option, not an exhaustive menu.

Rule 10 proviso: where Home Town entitled, the SECOND two-year Home Town entitlement must itself be unused/carried into grace to permit old All-India carry. It is NOT a requirement to have completed a carried Home Town journey before the old four-year block ended. If the second Home Town has already been used, old All India cannot replace it in grace.

Automatic extension is the ordinary one-year carry window, not an exemption from normal sanction, leave, destination and documentary requirements. Block accounting follows commencement of the outward journey, not booking/bill or return date. Ordinary return/claim conditions remain; no indefinite journey right is implied.

Fresh recruits use eight calendar-year occasions after the one-year service gate. FAQ shorthand “first eight years” must be read with its own tables; do not cut Table 5 off at the eighth joining anniversary. Initial appointment and continuous-service eligibility are related but distinct clocks; technical resignation does not reset the initial-service clock.

Table 4 explanation (ii) expressly permits Home Town OR All India in 2024–25 if the eighth-year All-India occasion was forgone/not availed. This is a transition choice, NOT carry-forward of the expired annual occasion. Table 4 source typo “2024–45” is transparently normalized to 2024–25.

FAQ 66 normal-scheme election excludes fresh-recruit LTCs in THAT four-year block. Do not invent a permanent career-long ban, an automatic reset or unrestricted switching; record and check the applicable election.

Current authority: government-hosted 1988 rule text plus 2025 DoPT FAQ and consolidation. Original standalone 2008, 2014 and 2015 scans were not independently retrieved; current official reproductions/citations support these subjects. No verified later substantive change to these topics was located in this review. DoT file uploaded under 2026/04 encloses 2025 documents, not a new 2026 amendment.

Rule 10 GID (1), one-time 2002–03 extension to 30 June 2005, is excluded from current instruction; taught only as an expired trap. Rule 8(c) is not the separate posted-staff package from Batch 4; no blanket annual carry-over or career-irrevocable election is invented.

All examples are hypothetical, assume covered employees, accepted declarations, admissible family/leave, sanction and other applicable conditions. Future Table 5 years assume unchanged rules; verify again before an actual claim. Later fare, booking, advance, claim, special-region and relaxation details remain in their planned batches. Educational material, not an individual sanction or guarantee of legal perfection.

Table 1: HQ = Home Town: normal scheme

Previous block 2018–21	Current at issue 2022–25	Next at issue 2026–29
Any Place in India	Any Place in India	Any Place in India

FAQ 14/19: one All India per four-year block; no Home Town LTC. “Current” is as at 1 July 2025; 2026–29 is current on this review date.

Table 2: HQ different from Home Town: mixed choices for 2022–25

Employee choice	Sub-block 2022–23	Sub-block 2024–25
Option 1	Home Town	Any Place in India
Option 2	Any Place in India	Home Town

FAQ 15 illustrates the mixed alternative. Two Home Town LTCs, one per sub-block, are ALSO permitted under Rule 8 / 2025 consolidation. All India replaces one Home Town; it is not a third occasion. Current analogues are 2026–27 and 2028–29.

Table 3: Joined 1 September 2016; eligible 1 September 2017

Period	LTC type	Occasion / reason
1 September 2016 – 31 August 2017	NIL	One-year service gate
1 September 2017 – 31 December 2017	Home Town	1
1 January 2018 – 31 December 2018	Home Town	2
1 January 2019 – 31 December 2019	Home Town	3
1 January 2020 – 31 December 2020	Any Place in India	4
1 January 2021 – 31 December 2021	Home Town	5
1 January 2022 – 31 December 2022	Home Town	6
1 January 2023 – 31 December 2023	Home Town	7
1 January 2024 – 31 December 2024	Any Place in India	8
1 January 2025 – 31 December 2025	NIL (not eligible)	Second year of sub-block 2024–25 in block 2022–25
1 January 2026 – 31 December 2029	Normal entitlement	Regular block 2026–29

Explanation (i): after the fresh cycle, entry in second year of the second regular sub-block (2025 of 2024–25) gives NIL in 2025.

Explanation (ii): entitlement is calculated calendar-year-wise with effect from completion of one year of regular service.

Table 4: Joined 31 December 2015; eligible 31 December 2016

Period	LTC type	Occasion / reason
31 December 2015 – 30 December 2016	NIL	One-year service gate
31 December 2016 (one day)	Home Town	1
1 January 2017 – 31 December 2017	Home Town	2
1 January 2018 – 31 December 2018	Home Town	3
1 January 2019 – 31 December 2019	Any Place in India	4
1 January 2020 – 31 December 2020	Home Town	5
1 January 2021 – 31 December 2021	Home Town	6
1 January 2022 – 31 December 2022	Home Town	7
1 January 2023 – 31 December 2023	Any Place in India	8
1 January 2024 – 31 December 2025	Home Town; see explanation (ii) exception	Second sub-block 2024–25 in block 2022–25
1 January 2026 – 31 December 2029	Normal entitlement	Next regular block 2026–29

Explanation (i): a 31 December joiner is eligible on 31 December next year; the first calendar occasion ends that day. Remaining seven occasions are available from the following year (2017 here). Unused first occasion lapses; not a same-day return requirement.

Explanation (ii): entry at the beginning of the second sub-block (2024 of 2024–25) gives Home Town if eighth All India used. If eighth LTC was forgone or not availed, choose either Any Place in India OR Home Town in the following sub-block 2024–25; not both and not carry of the expired annual slot.

Source transparency: the table prints “2024–45”; period endpoints and explanation establish 2024–25. Corrected here, not silently treated as a new rule.

Table 5: Joined 1 January 2025; eligible 1 January 2026

Period	LTC type	Occasion / reason
1 January 2025 – 31 December 2025	NIL	One-year service gate
1 January 2026 – 31 December 2026	Home Town	1
1 January 2027 – 31 December 2027	Home Town	2
1 January 2028 – 31 December 2028	Home Town	3
1 January 2029 – 31 December 2029	Any Place in India	4
1 January 2030 – 31 December 2030	Home Town	5
1 January 2031 – 31 December 2031	Home Town	6
1 January 2032 – 31 December 2032	Home Town	7
1 January 2033 – 31 December 2033	Any Place in India	8
1 January 2034 – 31 December 2037	Normal entitlement	Regular block 2034–37

Explanation: after the eighth occasion (2033), the new cycle starts with a regular four-year block in 2034; entitlement for 2034–37 follows normal LTC rules.

Future illustration under existing rules, not assurance against later amendments. Eight eligible calendar occasions are 2026–2033, not eight joining anniversaries ending 2032.

B5-01 — Home Town: once per two calendar years

Exact reference: Rule 8(a): Home Town frequency

Current restatement: Home Town LTC is available once in a block of two calendar years, subject to eligibility; it is not once every calendar year under the normal scheme.

Simple city Hinglish: Normal Home Town: two calendar years ke block mein one occasion.

Immediate hypothetical example: Ravi ne 2026 mein li; same 2026–27 block mein repeat nahi.

Watch out: Calendar blocks, not two years counted from the last trip.

Evidence: H;G25

B5-02 — Distance is not a minimum-kilometre test

Exact reference: Rule 8(a), read with FAQ 19/70: distance

Current restatement: Home Town LTC is irrespective of distance, but headquarters and accepted Home Town must be different places. A short distance is not itself a bar.

Simple city Hinglish: Distance chhota ho sakta hai; HQ aur Home Town alag places hon.

Immediate hypothetical example: Neha ka Home Town nearby hai; distance alone se reject nahi.

Watch out: Same HQ and Home Town is not a zero-kilometre reimbursable journey.

Evidence: H;F25

B5-03 — All India: once per four calendar years

Exact reference: Rule 8(b): Any Place in India

Current restatement: Any Place in India LTC is available once in a four-calendar-year block, irrespective of distance, subject to the Home Town adjustment proviso where applicable.

Simple city Hinglish: All India: four calendar years mein one occasion, distance chahe jitna ho; India ke andar.

Immediate hypothetical example: Ravi 2026 mein Goa gaya; 2028 ka second All India nahi.

Watch out: No automatic annual All-India right; fare/class conditions still apply.

Evidence: H;G25

B5-04 — All India replaces one Home Town occasion

Exact reference: Rule 8(b), proviso: in lieu and adjustment

Current restatement: Where Home Town LTC is available, All India is in lieu of and adjusted against the Home Town LTC available at commencement of the outward journey.

Simple city Hinglish: All India extra third occasion nahi; one Home Town ko replace karta hai.

Immediate hypothetical example: Neha: 2026–27 All India li; usi slot ki extra Home Town nahi.

Watch out: Do not add two Home Town plus a third All India.

Evidence: H;G25

B5-05 — Two Home Town is also a valid normal choice

Exact reference: Rule 8(a)/(b); 3 September 2025 consolidation introduction

Current restatement: For normal HQ-different employees, two Home Town LTCs (one per two-year sub-block), OR one Home Town and one All India in the four-year block, are available. All India is not compulsory.

Simple city Hinglish: Two Home Town bhi allowed; All India lena compulsory nahi.

Immediate hypothetical example: Ravi: 2026–27 aur 2028–29, dono mein Home Town choose karta hai.

Watch out: FAQ Table 2 mixed options do not prohibit two Home Town LTCs.

Evidence: H;D25

B5-06 — Do not borrow a future Home Town slot

Exact reference: Rule 8(b), proviso: available at outward commencement

Current restatement: The relevant Home Town entitlement must be available when the All-India outward journey commences; exhausting the current entitlement does not permit borrowing the next sub-block in advance.

Simple city Hinglish: Outward date par Home Town slot available ho; future slot advance nahi.

Immediate hypothetical example: Neha ne 2026–27 Home Town use ki; 2027 mein usi slot par All India nahi.

Watch out: A new calendar year is not necessarily a new two-year sub-block.

Evidence: H;G25

B5-07 — Self-only annual option: qualifying situation

Exact reference: Rule 8(c): family living away at Home Town

Current restatement: An employee whose family is living away at the Home Town may elect self-only Home Town LTC every year in place of all other concessions under the scheme.

Simple city Hinglish: Family Home Town par away rehti hai? Self-only annual option dekho.

Immediate hypothetical example: Delhi-posted Ravi ki family Jaipur mein; khud yearly visit option leta hai.

Watch out: This is an election with a full trade-off, not an added entitlement.

Evidence: H;G25

B5-08 — Annual self visits replace family and All India

Exact reference: Rule 8(c): in lieu of ALL concessions

Current restatement: The self-only annual Home Town election substitutes for all other employee/family LTC concessions, including Any Place in India; family trips cannot be stacked on it.

Simple city Hinglish: Self annual choose kiya, toh family LTC aur All India saath nahi.

Immediate hypothetical example: Neha annual self Home Town leti hai; extra family Goa claim nahi.

Watch out: Giving up only All India while keeping family Home Town would be wrong.

Evidence: H;G25

B5-09 — Do not merge separate annual schemes

Exact reference: Rule 8(c) contrasted with Rule 10 and Rule 7 note 14

Current restatement: Rule 8(c) is distinct from the special posted-staff package. Rule 10 ordinary two/four-year carry does not create a blanket carry-forward for this annual election; do not invent a career-irrevocable option.

Simple city Hinglish: Ye normal annual option hai, posted-staff package nahi; blanket annual grace nahi.

Immediate hypothetical example: Ravi unused annual visit ko normal two-year carry bolkar add nahi karta.

Watch out: Special posted-staff option and emergency passages were covered in Batch 4.

Evidence: H;G25

B5-10 — Family need not travel together

Exact reference: Rule 9: family groups and different times

Current restatement: Employee and eligible family may travel in different groups at different times within the applicable block; the separation does not multiply their individual entitlement.

Simple city Hinglish: Employee aur family alag groups, alag time travel kar sakte hain.

Immediate hypothetical example: Ravi March mein, wife June mein same available occasion use karti hai.

Watch out: Different groups are not extra annual occasions for the same person.

Evidence: H;F25

B5-11 — Outward date controls the charged block

Exact reference: Rule 9: commencement of outward journey

Current restatement: The block is determined by commencement of the outward journey, even if the return is in the next block; booking, billing and return dates do not choose the block.

Simple city Hinglish: Block outward journey se count hota hai, return ya booking se nahi.

Immediate hypothetical example: Neha 30 December 2025 nikli, January return; charge old block.

Watch out: A later return does not automatically shift the trip to the new block.

Evidence: H;G25

B5-12 — Each group has its own outward date

Exact reference: Rule 9: separate outward dates, read with Rule 10

Current restatement: Separate groups require their own outward dates and entitlement accounting. A January group may use an eligible old-block carry or current block, depending on valid sanction and ledger; not automatically current only.

Simple city Hinglish: Har group ki outward date dekho; January mein eligible old carry bhi possible.

Immediate hypothetical example: Ravi December gaya; family January, office old carry ya current charge check kare.

Watch out: The master example must not erase the Rule 10 grace route.

Evidence: H;G25

B5-13 — Grace also follows outward commencement

Exact reference: Rule 9, final sentence; Rule 10 grace

Current restatement: The outward-commencement principle also applies to Rule 10 carry-over. Start the eligible outward journey within grace; return crossing year-end alone does not change its block.

Simple city Hinglish: Grace deadline outward start ki hai; return next year ho sakta hai.

Immediate hypothetical example: Neha eligible carry par 31 December 2026 nikli, January return.

Watch out: No indefinite return right; ordinary leave and claim deadlines still apply.

Evidence: H;G25

B5-14 — Family can make different permitted choices

Exact reference: Rule 9; FAQ 7: mixed family Home Town / All India

Current restatement: Eligible family members may avail Home Town and Any Place in India in the same two-year block, within each traveller’s available adjusted entitlement. Separation does not replenish quota.

Simple city Hinglish: Same sub-block: kisi ka Home Town, kisi ka All India allowed, quota ke andar.

Immediate hypothetical example: Ravi Home Town gaya; wife available adjusted slot par Goa jaati hai.

Watch out: Do not award the same person Home Town plus an extra All India in one slot.

Evidence: H;F25

B5-15 — All India destinations may differ

Exact reference: Rule 11: separate family destinations

Current restatement: Within an All-India block, each eligible family member may visit a different place of choice; they need not visit the employee's earlier destination in that block.

Simple city Hinglish: All India par sabko employee ki same jagah jaana zaroori nahi.

Immediate hypothetical example: Ravi Goa gaya; wife apni available occasion par Kochi jaati hai.

Watch out: Destination flexibility is not an extra occasion or waiver of fare ceilings.

Evidence: H;F25

B5-16 — Choice does not remove destination formalities

Exact reference: Rule 11 read with Rule 6: declaration versus choice

Current restatement: Family destination freedom operates with the applicable destination declaration and change-sanction requirements; it does not replace them. See Batch 3 for the detailed Rule 6 procedure.

Simple city Hinglish: Different destination allowed, par declaration aur change approval skip nahi.

Immediate hypothetical example: Neha Goa se Kochi change chahti hai; required approval leti hai.

Watch out: Cross-reference only: Rule 6's detailed procedure remains in Batch 3.

Evidence: H;G25

B5-17 — Ordinary carry: first year only

Exact reference: Rule 10: first year of succeeding block

Current restatement: Unused normal block LTC may be availed during the first year of the succeeding block, not at any time in that next block. For 2024–25 Home Town, ordinary grace ends 31 December 2026.

Simple city Hinglish: Unused normal LTC: next block ka first year, poora next block nahi.

Immediate hypothetical example: Ravi ki 2024–25 Home Town unused; outward by 31 December 2026.

Watch out: No routine office-created second grace year; exceptional relaxation is separate.

Evidence: H;F25

B5-18 — All India carry needs unused second Home Town

Exact reference: Rule 10, proviso: where Home Town entitled

Current restatement: Where Home Town entitled, old All India can be carried only if the Home Town entitlement for the second two-year sub-block is itself unused and carried into grace; it supplies the entitlement against which All India is adjusted.

Simple city Hinglish: Old All India carry: second sub-block Home Town bhi unused carry ho.

Immediate hypothetical example: Neha ki 2024–25 Home Town unused; eligible old All India 2026 mein adjust.

Watch out: Not a requirement to finish Home Town first before the old block ends.

Evidence: H;G25

B5-19 — Used Home Town cannot support old All India

Exact reference: Rule 10, proviso: second Home Town already used

Current restatement: If the second two-year Home Town concession has already been availed, the old All-India concession cannot be carried by replacing that already-used entitlement.

Simple city Hinglish: Second Home Town already use ki? Us par old All India carry nahi.

Immediate hypothetical example: Ravi 2024 mein Home Town gaya; 2026 mein old All India replace nahi.

Watch out: A carry deadline alone does not establish entitlement.

Evidence: H;G25

B5-20 — Same-HQ case has no Home Town carry condition

Exact reference: Rule 10, proviso; FAQ 17: no Home Town entitlement

Current restatement: The Home Town proviso applies where Home Town entitled. A normal employee whose HQ equals Home Town has only All India; unused All India may carry into the first year without a nonexistent Home Town prerequisite.

Simple city Hinglish: HQ equals Home Town: unused All India carry ko Home Town condition nahi.

Immediate hypothetical example: Neha Jaipur HQ aur Home Town; unused 2022–25 All India, eligible 2026 carry.

Watch out: Do not extend this normal-scheme carry to fresh-recruit annual slots.

Evidence: H;F25

B5-21 — Old carry and new entitlement stay distinct

Exact reference: Rule 10 with Rule 9: separate block charging

Current restatement: A valid old-block carried concession and a new-block concession can both be used in the grace year, charged separately. Carry does not create a second new-block occasion.

Simple city Hinglish: Old carry aur new slot alag charge karo; dono ko new block mat likho.

Immediate hypothetical example: Ravi 2026 mein old 2024–25 aur new 2026–27 Home Town alag use karta hai.

Watch out: Document the block/sub-block and the traveller, not just “LTC 2026”.

Evidence: H;F25

B5-22 — Automatic grace is not automatic sanction

Exact reference: FAQ 18 with Rule 10: automatic extension

Current restatement: The ordinary first-year extension is automatic; an ad hoc extension order is not needed for that window. It does not waive normal LTC/leave sanction, declarations or other prerequisites.

Simple city Hinglish: Grace automatically milti hai, lekin regular LTC aur leave approval lena hai.

Immediate hypothetical example: Neha regular sanction leti hai; grace ke liye special order nahi chahiye.

Watch out: The master's "no application/sanction needed" is too broad.

Evidence: H;F25

B5-23 — Update the FAQ's 2025 "current" label

Exact reference: FAQ 13: four-calendar-year block; Rule 8

Current restatement: FAQ 13's current block 2022–25 was correct on 1 July 2025. As of 27 October 2026 the normal block is 2026–29, with Home Town sub-blocks 2026–27 and 2028–29.

Simple city Hinglish: FAQ issue hua tab 2022–25 block tha. Aaj regular block 2026–29 hai.

Immediate hypothetical example: Ravi October 2026 form mein current block 2026–29 likhta hai.

Watch out: Fresh recruits have a personal calendar; do not impose this national start on them.

Evidence: F25;H

B5-24 — Same HQ/Home Town: All India only

Exact reference: FAQ 14 and 19; Table 1; OM 18 May 2015

Current restatement: For HQ equal to Home Town, Table 1 gives only Any Place in India once in each block 2018–21, 2022–25, 2026–29. No separate Home Town LTC is admissible.

Simple city Hinglish: Table one: same HQ aur Home Town. Blocks 2018–21, 2022–25, 2026–29: each mein one All India only.

Immediate hypothetical example: Neha ka HQ aur Home Town Jaipur hai; normal scheme mein separate Home Town LTC nahi.

Watch out: Table 1 is the NORMAL scheme; fresh-recruit FAQ 70 is different.

Evidence: F25;G25

B5-25 — Mixed choice 1: Home Town, then All India

Exact reference: FAQ 15, Table 2, option 1: HQ different

Current restatement: Table 2 option 1 for 2022–25: Home Town in 2022–23, All India in 2024–25. The same mixed structure can be applied to current sub-blocks if eligible.

Simple city Hinglish: Table two option one: 2022–23 mein Home Town; 2024–25 mein All India.

Immediate hypothetical example: Ravi 2026–27 Home Town, 2028–29 adjusted All India leta hai.

Watch out: Table 2 does not make All India compulsory or grant a third occasion.

Evidence: F25;D25

B5-26 — Mixed choice 2: All India, then Home Town

Exact reference: FAQ 15, Table 2, option 2: HQ different

Current restatement: Table 2 option 2: All India in 2022–23, Home Town in 2024–25. All India can replace the available first-sub-block Home Town, leaving the later Home Town.

Simple city Hinglish: Table two option two: 2022–23 mein All India; 2024–25 mein Home Town.

Immediate hypothetical example: Neha 2026–27 All India, 2028–29 Home Town choose karti hai.

Watch out: Two Home Town LTCs remain an alternative under the normal rule.

Evidence: F25;D25

B5-27 — Two LTCs: historical 2022 illustration

Exact reference: FAQ 16, case 1: calendar year 2022

Current restatement: In 2022, unused 2020–21 LTC plus current 2022–23 LTC could be availed, separately charged and subject to each entitlement and All-India proviso where relevant.

Simple city Hinglish: Case one, 2022 mein: old 2020–21 carry aur new 2022–23 LTC.

Immediate hypothetical example: Ravi 2022 mein dono eligible Home Town trips alag blocks par charge karta hai.

Watch out: Historical illustration, not an invitation to claim a lapsed 2020–21 trip now.

Evidence: F25;H

B5-28 — Two LTCs: historical 2024 illustration

Exact reference: FAQ 16, case 2: calendar year 2024

Current restatement: In 2024, unused 2022–23 LTC plus current 2024–25 LTC could be used with proper separate block accounting and ordinary entitlement checks.

Simple city Hinglish: Case two, 2024 mein: old 2022–23 carry aur new 2024–25 LTC.

Immediate hypothetical example: Neha 2024 mein dono Home Town trips ke separate block records rakhti hai.

Watch out: Two in a grace year is not a permanent two-trips-per-year rule.

Evidence: F25;H

B5-29 — Two LTCs: applicable 2026 illustration

Exact reference: FAQ 16, case 3: calendar year 2026

Current restatement: In 2026, unused 2024–25 LTC plus current 2026–27 LTC may be availed, with old carry outward commencement by 31 December 2026 and the All-India proviso where applicable.

Simple city Hinglish: 2026 example: old 2024–25 carry plus new 2026–27 slot.

Immediate hypothetical example: Ravi old Home Town June, new Home Town October mein use karta hai.

Watch out: Same traveller must have both valid entitlements; not two fresh current slots.

Evidence: F25;H

B5-30 — Two All India: historical 2022 illustration

Exact reference: FAQ 17, case 1: HQ equals Home Town, 2022

Current restatement: For normal HQ-equal-Home-Town employees, 2022 could contain unused 2018–21 All India plus current 2022–25 All India, separately charged.

Simple city Hinglish: Same HQ case: 2022 mein old 2018–21 plus new 2022–25 All India.

Immediate hypothetical example: Neha ne 2022 mein old aur new eligible All India alag use kiye.

Watch out: No Home Town carry prerequisite exists for this normal same-HQ case.

Evidence: F25;H

B5-31 — Two All India: applicable 2026 illustration

Exact reference: FAQ 17, case 2: HQ equals Home Town, 2026

Current restatement: For normal HQ-equal-Home-Town employees, 2026 can contain unused 2022–25 All India plus new 2026–29 All India; old carry must commence outward by 31 December 2026.

Simple city Hinglish: Same HQ: 2026 mein old 2022–25 aur new 2026–29 All India possible.

Immediate hypothetical example: Ravi old carry June mein, new block Goa trip October mein leta hai.

Watch out: Two separate block rights, not two All India LTCs charged to 2026–29.

Evidence: F25;H

B5-32 — Grace does not shift the national calendar

Exact reference: FAQ 18: extension of block/sub-block

Current restatement: The one-year grace for a four-year block or two-year sub-block does not postpone the start of the succeeding block/sub-block or turn 2026–29 into a five-year entitlement.

Simple city Hinglish: Grace old slot ke liye hai; new regular block calendar shift nahi hota.

Immediate hypothetical example: Neha old carry 2026 mein leti hai; new block phir bhi 2026–29 hi.

Watch out: No general second grace year is supplied by this FAQ.

Evidence: F25;H

B5-33 — Other-State NCR towns are not Delhi HQ

Exact reference: FAQ 20; OM 18 May 2015: Delhi/NCR distinction

Current restatement: Cities/towns outside Delhi in other NCR States are not treated as Delhi headquarters for this purpose; FAQ 20 permits Home Town concession. Accepted Home Town and genuine admissible journey must still be established.

Simple city Hinglish: Other-State NCR town ko Delhi HQ mat maano; accepted Home Town check karo.

Immediate hypothetical example: Delhi HQ, accepted Home Town Meerut: Neha eligible Home Town claim check karti hai.

Watch out: NCR residence/commuting alone is not a free LTC payment or new Home Town declaration.

Evidence: F25;G25

B5-34 — Expired extension is not a current benefit

Exact reference: Rule 10, GID (1): one-time 2002–03 extension

Current restatement: The one-time extension for 2002–03 Home Town, linked to 2002–05 All India, through 30 June 2005 is historical and not operative now. Ordinary current grace remains Rule 10; exceptional Rule 18 relaxation is separate.

Simple city Hinglish: 2002–03 Home Town, linked 2002–05 All India: one-time extension 30 June 2005 tak thi; ab expired.

Immediate hypothetical example: Ravi 2026 claim par old June 2005 concession apply nahi karta.

Watch out: Audit-only exclusion, not a nonobsolete extra six-month extension.

Evidence: H

B5-35 — Fresh-recruit pattern: three, one, three, one

Exact reference: FAQ 64; Rule 7 note 13; OM 23 September 2008

Current restatement: After the one-year regular-service gate, eight calendar-year occasions follow Home Town, Home Town, Home Town, All India, Home Town, Home Town, Home Town, All India; not eight unrestricted destinations.

Simple city Hinglish: First two personal four-year blocks: three Home Town, one All India; phir same repeat.

Immediate hypothetical example: Neha ka first slot Home Town hai; first year Goa All India nahi.

Watch out: Only the initial two personal four-occasion blocks, not every eight-year career cycle.

Evidence: F25;G25

B5-36 — Changing government jobs does not restart it

Exact reference: FAQ 65; Rule 7 note 13; technical-resignation guidance

Current restatement: The two personal four-year blocks relate to initial joining Government, even if the employee later changes Government jobs. Qualifying technical resignation preserves the original clock, not

a new eight-occasion cycle.

Simple city Hinglish: Government job change se initial joining clock reset nahi hoti.

Immediate hypothetical example: Ravi technical resignation se new post join karta hai; fresh count restart nahi.

Watch out: Technical-resignation eligibility and pre-application conditions were detailed in Batch 4.

Evidence: F25;G25;T22

B5-37 — Eligibility first, then calendar-year occasions

Exact reference: FAQ 65 read with Rule 7(1): one-year gate

Current restatement: The concession is admissible after completion of one year of qualifying service; calendar occasions start from eligibility, not automatically on joining or on confirmation. See official tables for exact anniversary boundaries.

Simple city Hinglish: Joining day se LTC nahi; one year service complete hone par first slot.

Immediate hypothetical example: Neha joined 1 January 2025; eligible 1 January 2026, joining year NIL.

Watch out: Do not substitute probation completion for the service gate.

Evidence: F25;H

B5-38 — Do not cut off at eighth joining anniversary

Exact reference: FAQ 64–65; Tables 3–5: two different clocks

Current restatement: Read “first eight years” with the eight eligible calendar occasions after the service gate. Table 5 explicitly puts occasion eight in 2033 for joining 1 January 2025; do not truncate that table at 2032.

Simple city Hinglish: Joining clock aur eligible calendar slots alag; official eight slots follow karo.

Immediate hypothetical example: Ravi joined January 2025; eighth All India 2033 hai, 2032 nahi.

Watch out: Partial first eligible calendar year is still occasion one; unused years do not slide.

Evidence: F25;G25

B5-39 — Normal-scheme election: no same-block hybrid

Exact reference: FAQ 66: opting for the normal LTC scheme

Current restatement: A fresh recruit may choose the normal LTC scheme, but then cannot avail fresh-recruit LTCs in that four-year block. This is not stated as an automatic permanent career-long forfeiture; do not invent unrestricted switching.

Simple city Hinglish: Normal scheme choose ki, toh us four-year block mein fresh pattern nahi.

Immediate hypothetical example: Neha normal option leti hai; same block mein extra fresh annual slot nahi.

Watch out: Record the choice and verify later applicable election; do not promise a reset.

Evidence: F25

B5-40 — Unused annual slot lapses, not postponed

Exact reference: FAQ 67: no fresh-recruit carry-over

Current restatement: A fresh-recruit annual occasion not used in its calendar year lapses; Rule 10 ordinary block carry is unavailable. Skipping a Home Town slot does not bring the fourth All India year forward.

Simple city Hinglish: Fresh annual slot unused? Year-end lapse; next year extra slot nahi.

Immediate hypothetical example: Ravi 2026 Home Town skip karta hai; 2027 mein two slots nahi milte.

Watch out: No one-year fresh-recruit grace and no pushing the whole pattern forward.

Evidence: F25

B5-41 — Transition at start of second sub-block

Exact reference: FAQ 68(a); Table 4 explanation (ii): eighth used

Current restatement: When the post-fresh cycle begins at the first year of the regular second sub-block, the Table 4 case gets Home Town only if the eighth All India was used; the forgone exception is in explanation (ii).

Simple city Hinglish: Second sub-block start par transition, eighth All India used: Home Town only.

Immediate hypothetical example: Neha eighth All India 2023 mein leti hai; 2024–25 mein Home Town.

Watch out: Do not generalise this to deny the source’s unused-eighth exception.

Evidence: F25

B5-42 — Important exception: Home Town OR All India

Exact reference: Table 4 explanation (ii): eighth forgone / not availed

Current restatement: If the eighth All-India LTC was forgone or not availed, Table 4 explanation (ii) gives a choice of Home Town OR Any Place in India in the following 2024–25 sub-block. This is a transition entitlement, not annual carry.

Simple city Hinglish: Eighth All India unused thi? Following sub-block mein Home Town ya All India choice.

Immediate hypothetical example: Ravi 2023 eighth skip karta hai; 2024–25 mein All India choose kar sakta hai.

Watch out: Do not award both, and do not label the choice a carried fresh annual slot.

Evidence: F25

B5-43 — Transition in second year: that year NIL

Exact reference: FAQ 68(b); Table 3 explanation (i)

Current restatement: If the post-fresh cycle begins in the second year of the regular second sub-block, FAQ 68(b)/Table 3 gives NIL in that year: 2025 for the illustrated employee. The next regular block starts in 2026.

Simple city Hinglish: Second sub-block ke second year par transition: illustrated year NIL.

Immediate hypothetical example: Neha ki eighth 2024; 2025 new regular LTC nahi, 2026 se normal.

Watch out: Do not invent a new mid-sub-block entitlement or extrapolate Table 4's special exception.

Evidence: F25

B5-44 — Transition at a full regular-block boundary

Exact reference: FAQ 68(c); Table 5 explanation

Current restatement: When the fresh cycle ends immediately before a regular block begins, normal entitlement applies from that new regular four-year block, illustrated by 2034–37 after the eighth occasion in 2033.

Simple city Hinglish: New full regular block start ho, toh usual normal entitlement se transition.

Immediate hypothetical example: Ravi ki eighth 2033; 2034–37 mein normal block rights, rules unchanged hon toh.

Watch out: No ninth fresh annual slot; future years remain subject to future amendments.

Evidence: F25

B5-45 — First slot can be a single eligibility day

Exact reference: FAQ 69; Table 4 explanation (i): 31 December

Current restatement: A 31 December joiner becomes eligible on 31 December next year. The first calendar occasion ends that same day; if unused it lapses. Remaining seven occasions start from the next calendar year.

Simple city Hinglish: 31 December joiner: next year 31 December first slot ka only day.

Immediate hypothetical example: Neha joined 2015 end; first outward slot 31 December 2016, warna lapse.

Watch out: Not LTC on joining day. This does not itself require return before midnight.

Evidence: F25;H

B5-46 — Only fresh occasions four and eight are usable

Exact reference: FAQ 70: fresh recruit with HQ equal to Home Town

Current restatement: A fresh recruit whose HQ equals Home Town cannot use Home Town LTC and may use All India only on occasions four and eight. The other six slots cannot be converted into extra All India.

Simple city Hinglish: Fresh HQ equals Home Town: only fourth aur eighth All India slots usable.

Immediate hypothetical example: Ravi ki first three Home Town slots unusable; first-year All India nahi.

Watch out: Do not replace fresh restrictions with normal once-per-national-block entitlement.

Evidence: F25

B5-47 — Table 3: 1 September 2016 joiner begins

Exact reference: Table 3: joining, gate and occasions 1–3

Current restatement: Joining 1 September 2016: NIL through 31 August 2017; first Home Town 1 September–31 December 2017; second Home Town in 2018; third Home Town in 2019.

Simple city Hinglish: Joined 1 September 2016; NIL through 31 August 2017. Home Town: 1 September to December 2017, phir 2018, 2019.

Immediate hypothetical example: Neha joined September 2016; August 2017 journey abhi eligible nahi.

Watch out: First eligible slot is only September–December, not a rolling twelve-month year.

Evidence: F25

B5-48 — Table 3: complete the eight-slot sequence

Exact reference: Table 3: occasions 4–8

Current restatement: All India fourth in 2020; Home Town fifth 2021, sixth 2022, seventh 2023; All India eighth in 2024. Every listed full year runs 1 January–31 December.

Simple city Hinglish: Full years January to December: All India 2020; Home Town 2021, 2022, 2023; All India 2024.

Immediate hypothetical example: Neha seventh slot 2023 mein Goa All India nahi choose karti.

Watch out: Annual unused slots lapse rather than postponing the fixed later slot years.

Evidence: F25

B5-49 — Table 3: NIL 2025, normal 2026–29

Exact reference: Table 3 final rows; explanations (i)/(ii)

Current restatement: 2025 is NIL, being the second year of sub-block 2024–25 within 2022–25. Normal entitlement follows for 1 January 2026–31 December 2029. Calculation is calendar-year-wise from completion of one year service.

Simple city Hinglish: Table three end: 2025 NIL; normal 2026–29. Calendar slots eligibility se.

Immediate hypothetical example: Neha 2025 mein new regular trip book nahi karti; 2026 entitlement check karti hai.

Watch out: Table 3 includes both the NIL-year explanation and eligibility-date explanation.

Evidence: F25

B5-50 — Table 4: the one-day first slot

Exact reference: Table 4: joining, gate and first occasion

Current restatement: Joining 31 December 2015: NIL 31 December 2015–30 December 2016; Home Town occasion one only on 31 December 2016. Explanation (i) places remaining seven occasions from 2017.

Simple city Hinglish: Joined 31 December 2015; NIL through 30 December 2016. First Home Town: only 31 December 2016.

Immediate hypothetical example: Ravi first slot miss karta hai; 2017 mein expired first add nahi hoti.

Watch out: Source never gives LTC on 31 December 2015 joining day.

Evidence: F25

B5-51 — Table 4: every remaining fresh year

Exact reference: Table 4: occasions 2–8

Current restatement: Home Town second 2017, third 2018; All India fourth 2019; Home Town fifth 2020, sixth 2021, seventh 2022; All India eighth 2023. Each full year is 1 January–31 December.

Simple city Hinglish: Home Town 2017, 2018; All India 2019; Home Town 2020, 2021, 2022; All India 2023.

Immediate hypothetical example: Ravi fourth All India 2019 mein use karta hai; third 2018 mein nahi.

Watch out: Completion of the service anniversary does not redraw these calendar-year slots.

Evidence: F25

B5-52 — Table 4: transition and unused-eighth exception

Exact reference: Table 4 final rows; explanation (ii) and source typo

Current restatement: 1 January 2024–31 December 2025: Home Town if eighth All India used, otherwise Home Town OR All India per explanation (ii). Normal 2026–29 follows. Printed “2024–45” is corrected to 2024–25, not a new period.

Simple city Hinglish: 2024–25 Home Town; eighth forgone ho toh All India choice bhi. Normal 2026–29.

Immediate hypothetical example: Ravi eighth skip karta hai; 2024–25 choice ko annual carry nahi bolta.

Watch out: The omitted master footnote matters; Table 4 does not always mean Home Town only.

Evidence: F25

B5-53 — Table 5: 1 January 2025 joiner begins

Exact reference: Table 5: joining, gate and occasions 1–3

Current restatement: Joining 1 January 2025: NIL through 31 December 2025; first Home Town 2026, second 2027, third 2028. Eligibility begins 1 January 2026; full slots run 1 January–31 December.

Simple city Hinglish: Table five: 2025 NIL; eligible 1 January 2026; Home Town 2026, 2027, 2028.

Immediate hypothetical example: Neha joined January 2025; 2026 first Home Town available, other conditions ke saath.

Watch out: Not All India just because national block 2026–29 has begun.

Evidence: F25

B5-54 — Table 5: eighth occasion is 2033

Exact reference: Table 5: occasions 4–8

Current restatement: All India fourth 2029; Home Town fifth 2030, sixth 2031, seventh 2032; All India eighth 2033, each 1 January–31 December. These future illustration years assume unchanged rules.

Simple city Hinglish: All India 2029; Home Town 2030, 2031, 2032; All India 2033, rules unchanged hon toh.

Immediate hypothetical example: Neha ke 2032 seventh slot ko eighth All India mat banao.

Watch out: The official eighth date is not the eighth joining anniversary.

Evidence: F25

B5-55 — Table 5: normal block 2034–37

Exact reference: Table 5 final row and explanation; FAQ 68(c)

Current restatement: Normal entitlement applies 1 January 2034–31 December 2037, because the new cycle meets the beginning of a full regular block. Apply usual normal rules, not another fresh eight-occasion cycle.

Simple city Hinglish: 2034–37 normal block hai; fresh pattern repeat nahi, future rules verify karo.

Immediate hypothetical example: Neha 2034 normal Home Town ya adjusted All India rights check karti hai.

Watch out: Forward illustration is not a guarantee that no rule can change by 2034.

Evidence: F25
