CCS LTC — Batch 4: Admissibility, Leave & Special Situations

Reviewed 27 October 2026. Educational restatements, not an official sanction.

Important dates first

11.10.1956 — Rule 7 GID (1): normal route ceiling, vacation, class, intimation, evidence and assistance records.

04.09.1957 / 06.07.1959 — Hometown outside India / Missions abroad instructions; distinct Indian gateways, not foreign airfare.

10.09.1959 / 14.03.1980 — Nepal Aid Programme instructions; nearest actual Indian rail-station anchor and transfer split.

19.07.1960 / 07.02.2007 — Tour/transfer combination / extension to All-India LTC. Original 2007 pending-claim transition is history.

07.08.1965 / 07.12.1965 — Training headquarters / deputation-reversion advance procedure.

15.07.1969 / 07.07.1971 / 16.01.1976 — AIS cost/no-duplication / non-top PSU option / fresh option on PSU revision.

06.03.1984 / 30.03.1988 / 09.07.1991 — Top-level PSU terms and cost / study leave / escort safeguards.

17.08.2016 / 24.11.2022 — Technical-resignation origin / official government-hosted consolidated paras 2.1 and 2.3. No restarted eight-year period.

03.04.2018 — CCL admissibility confirmation; not an extra LTC occasion or an automatic leave sanction.

24.04.2018 -> 01.07.2017 — Posted-staff package ISSUE date -> express EFFECT date. Annual alternative is in lieu of normal LTC.

28.02.2020 — Emergency Passage destination clarification; two additional career occasions, not two per block.

01.07.2025 / 03.09.2025 — FAQ / consolidation issue dates. Then-current 2022-25 examples do not stay current forever.

Journey date / prior approval — Applicable one-year continuous service must be complete at the actual journey; escort requires prior HoD approval EACH occasion.

2026-2029 / 31.12.2026 — Current regular block, sub-blocks 2026-27/2028-29; eligible unused prior-block carryover is conditional under Rule 10. Fresh recruits differ. No universal return-by-31-December requirement is created.

Scope, currentness and corrections

Scope: master chapters 10-15, Rule 7(1)-(2), applicable admissibility GIDs and cross-topic controls. The narration is authored in exact-reference, city-Hinglish point, immediate hypothetical example order; consult the release README for media-completion status. All authored restatements are educational, not verbatim official quotations or actual claim sanctions.

Review date 27 October 2026. Primary current substance checked in official government-hosted full rules/GIDs, 2025 FAQ and September consolidation; technical resignation additionally checked in the government-hosted 24 November 2022 DoPT consolidation. Targeted searches did not identify a verified later amendment to these admissibility clauses, but a negative search is not proof none exists. Standalone original historical OMs/Gazette were not all independently retrieved.

Evidence distinction: C07, P18 and P20 are full DoPT-document reproductions on a non-government host. The current official 2025 consolidation independently cites the combination extension and posted-staff/Emergency Passage framework; detailed 2007/2018/2020 clauses were read in those reproduced copies. Do not describe the reproduction host as a government site or claim independent authentication of the original primary-hosted scans. Verify originals with the sanctioning office for a contested case.

Master corrections: training is NOT safely reduced to automatic HQ shift. GID (20)(i) uses automatic wording, while detailed (ii) normally retains original HQ unless competent SR 59 change; 2025 repeats the tension. This edition discloses it and directs examination of actual competent orders. The broken sentence preceding the transfer-combination option in the older compilation is not silently reconstructed.

Master corrections: government spouses living together have had the operative separate-hometown option since 1990; mandatory common-hometown prose is the older position. Normal regular entitlement is NOT two hometown PLUS an extra All-India. The annual posted-staff option is IN LIEU of normal LTC; only Emergency Passage is expressly additional. An escort employee must not HAVE an adult family member under the source wording, not merely have one who happens to be busy.

Rule 7(1) expressly identifies Rule 1(3)(i)/(iii) categories. Rule 2 and distinct deputation/category terms remain necessary. Technical resignation is fact-based; correct process can qualify without a magic word, and merely writing technical does not qualify a private move. The 2022 para 2.1.2 pre-joining-application route requires all three conditions. Prior State/PSU service is not automatically continuous Central service; authorised special preservation/deputation provisions are not ruled out.

The phrase deemed availment in the master is an application, not a separately numbered sentence in Rule 9. Distinguish a declared, sanctioned and actually performed LTC with nil/no fare claim from a cancelled unperformed booking, and from an ordinary private trip. Do not promise every late claim is irretrievably lost: official delegated delayed admission exists, addressed fully in Batch 11.

The original home-and-back/actual-distance cap is reconciled with express one-leg GID (5) cases and later 1987/2017 away-family rules. Batch 2 already teaches all six GID (5) illustrations; Batch 3 covers GID (4), and Batch 1 covers GIDs (6)/(9). They are not newly renumbered or erased. Rail class uses journey-time entitlement, not the obsolete pay bands in the old compilation.

Posted-staff geographical scope is NER, UT Ladakh, A&N and Lakshadweep, not all of J&K and not merely visitors. Annual visits and Emergency Passage use the restricted spouse/dependent-child family subset. The 2020 clarification permits the declared selected family residence. These standing instructions are distinct from the time-limited special air-dispensation scheme; the reported September 2026 air extension is not authenticated here. Do not teach the master's 25 September 2026 date as the current validity of every special arrangement.

Chapters 10-15 include comparisons on fresh recruits, government spouses, cancellation/encashment, rail booking charges and statutory levies. Their applicable points are included here without claiming completion of later specialist batches 5, 6-10, 11 and 12. The 2025 FAQ jumps from Q27 to Q29: no invented Q28. Full-series remaining GIDs are still pending batchwise.

All amounts, routes, employee names and cases are invented teaching aids. An admissibility gate is not full sanction: entitlement class, route, prior permissions, actual travel, documentation, available block and competent decisions all remain necessary. Governing rules/orders prevail over compilation imprecision; this is not an error-free legal certificate.

Approval and authority grid

Question	Who acts?	Conditions	Reference
Employee travels	Employee; leave-sanctioning authority; LTC office	Due/admissible leave plus service and block gates; no weekend-only self trip	Rule 7; FAQs 25/27
Family only	Employee files claim; LTC office checks family	Employee need not personally take leave; eligibility and evidence still required	FAQs 12/26
Study leave	LTC sanctioning/Accounts office	Self/co-staying family actual-HQ cap; away family normal later rules	GID (17)(a)/(b)
Training headquarters	Authority competent under SR 59; LTC office	Check original HQ and actual competent change; do not isolate automatic-HQ summary	GID (20)(i)-(iii)
Non-top / top PSU	Employee option; lending/borrowing office; PSU	Favourable option versus specific top-post terms; no mixing; correct cost bearer	GIDs (12)/(14)/(16)
Escort	Head of Department before each occasion	Necessity; no adult family; concessions; no other LTC-entitled companion	GID (19), five conditions
Posted-family package	Employee elects; competent LTC office verifies	Normal OR annual alternative; Emergency Passage separately two career occasions	24.04.2018; 28.02.2020
Deputation advance	Lending office: leave; borrowing TA CO: advance	Forward application and sanction copy; ultimate liable account adjusts	Rule 15 GID (1)(a)-(c)

B4-01 — One year: identify the covered category

Exact reference: Rule 7(1), read with Rule 1(3)(i)/(iii) and Rule 2

Current restatement: For Rule 1(3)(i) civil/Defence-civilian and (iii) contract categories, one year continuous Central Government service must be completed on the journey date. Rule 2 and other category-specific conditions still apply; inclusion is not an unconditional concession.

Simple city Hinglish: Categories one aur three: one year continuous Central service plus other conditions.

Immediate hypothetical example: Ravi: ten months service; leave alone enough nahi.

Watch out: Do not replace continuous service with probation completion or assume all categories have identical service tests.

Evidence: H;G25

B4-02 — Check the actual traveller's date

Exact reference: Rule 7(1): employee or family journey date

Current restatement: The one-year test is applied on the date of the journey performed by the employee or family, as applicable, not the application, ticket purchase or bill date. Separate family travel does not borrow the employee's later eligibility date.

Simple city Hinglish: Service gate actual self ya family journey date par check karo.

Immediate hypothetical example: Family ten months par gayi; later eligibility cure nahi.

Watch out: For fresh recruits, personal occasion calendars are a separate Batch 5 question.

Evidence: H;G25

B4-03 — Casual and special casual leave count

Exact reference: Rule 7(2); FAQ 25; OM 03.04.2018

Current restatement: LTC is admissible during any period of leave, including casual and special casual leave; Child Care Leave is expressly recognised. The relevant kind of leave must itself be due/admissible and sanctioned as required; an LTC allowance does not create leave.

Simple city Hinglish: Casual aur special casual leave allowed; leave properly approved ho.

Immediate hypothetical example: Neha casual leave par jaaye; earned leave compulsory nahi.

Watch out: LTC eligibility is not a direction that every leave application must be sanctioned.

Evidence: H;G25;F25

B4-04 — Vacation departments: vacation counts as leave

Exact reference: Rule 7 GID (1), vacation paragraph; OM 11.10.1956

Current restatement: Vacation is treated as regular leave for this concession for government servants serving in a vacation department. It is a specific deeming instruction, not permission to treat every employee's ordinary weekend as vacation.

Simple city Hinglish: Vacation department ki vacation regular leave count hoti hai.

Immediate hypothetical example: Teacher vacation par jaaye; office weekend alag hai.

Watch out: Department/vacation status and other entitlement conditions still need checking.

Evidence: H;G25

B4-05 — Weekend-only travel is not enough for self

Exact reference: FAQ 27; 2025 Rule 7 Note 2

Current restatement: When the employee avails LTC, weekend/holidays alone without leave are insufficient. Due-and-admissible leave is required. Do not invent a universal number of leave days, or require every travel hour to fall within leave while ignoring authorised prefix/suffix rules.

Simple city Hinglish: Self ka weekend only trip bina leave LTC nahi.

Immediate hypothetical example: Ravi Saturday Sunday ghooma, leave zero; claim assume nahi.

Watch out: A proper leave spell with permissible prefixed/suffixed holidays is a different factual case.

Evidence: F25;G25

B4-06 — Family-only travel: employee need not take leave

Exact reference: FAQ 26; Rule 9 separate-family travel comparison

Current restatement: If only family members travel, the employee need not avail leave merely to enable their LTC. Eligibility, declaration, evidence and the employee's applicable family/block entitlement remain required.

Simple city Hinglish: Family only journey par employee ko leave necessary nahi.

Immediate hypothetical example: Neha office mein, eligible spouse hometown jaaye.

Watch out: Do not apply the employee-traveller weekend prohibition as a blanket family-only bar.

Evidence: F25;H

B4-07 — CCL does not create bonus LTC occasions

Exact reference: Rule 7(2); OM 13018/6/2013-Estt(L), 03.04.2018; Rule 9

Current restatement: Child Care Leave is a qualifying leave setting, not an extra LTC occasion or a new block. Repeated CCL spells do not multiply entitlement. CCL's own purpose/sanction restrictions remain applicable; saying CCL has zero effect on all administration would be overbroad.

Simple city Hinglish: CCL valid leave hai, extra LTC occasion nahi.

Immediate hypothetical example: Three CCL spells se three bonus trips nahi.

Watch out: Normal entitlement and outward-date block accounting still apply.

Evidence: G25;F25;H

B4-08 — Resigning without returning to duty

Exact reference: Rule 7 GID (2): ordinary resignation after leave

Current restatement: The concession is not admissible to a government servant who proceeds on regular leave and then resigns without returning to duty. This is not a blanket statement about every technical resignation, nor an absolute determination of every possible Rule 18 relaxation.

Simple city Hinglish: Regular leave ke baad resign, duty return nahi: concession inadmissible.

Immediate hypothetical example: Ravi trip ke baad job chhod de; normal claim fail.

Watch out: Technical resignation preserving eligible service is examined separately; do not copy the master's absolute no-relaxation assertion.

Evidence: H

B4-09 — Technical resignation is a qualifying process

Exact reference: DoPT 24.11.2022 para 2.1.1; 17.08.2016 origin

Current restatement: Applied through proper channel to a government post, selected, and required to resign for administrative reasons: qualifying resignation is technical even if the letter omits that word. Other resignations, blocked forwarding and ad hoc-post cases do not automatically earn this past-service benefit.

Simple city Hinglish: Proper channel selection aur administrative resignation qualify, label alone nahi.

Immediate hypothetical example: Letter mein technical word nahi; qualifying facts matter.

Watch out: This is not automatic protection for every private/PSU/State-to-Centre move.

Evidence: T22;G25

B4-10 — Pre-joining application: immediate disclosure

Exact reference: DoPT 24.11.2022 para 2.1.2(i)

Current restatement: For an application made before joining government service, the special route requires immediate intimation of those application details on joining; this is the first of three cumulative conditions.

Simple city Hinglish: Pre service application joining par immediately disclose karo.

Immediate hypothetical example: Neha joining par pending application disclose kare.

Watch out: Not a universal exemption from the proper-channel system.

Evidence: T22

B4-11 — Pre-joining application: specific resignation request

Exact reference: DoPT 24.11.2022 para 2.1.2(ii)

Current restatement: At resignation, specifically request treatment for taking up the other government appointment applied for before entering service. This does not dispense with the other two paragraph 2.1.2 conditions.

Simple city Hinglish: Resignation mein pre service applied Government job ka specific request do.

Immediate hypothetical example: Neha new selection ka purpose clearly likhe.

Watch out: Factual qualifying circumstances, not a magic heading, control.

Evidence: T22

B4-12 — Pre-joining application: authority's satisfaction

Exact reference: DoPT 24.11.2022 para 2.1.2(iii)

Current restatement: The accepting authority must be satisfied that, had the employee already been serving when applying, the application would have been forwarded through proper channel. All three pre-service-application conditions must be assessed.

Simple city Hinglish: Authority satisfy ho ki application proper channel se forward hoti.

Immediate hypothetical example: Forwarding allowed nahi, toh automatic benefit nahi.

Watch out: Do not reduce the three conditions to employee self-certification alone.

Evidence: T22

B4-13 — LTC entitlement can carry with technical resignation

Exact reference: DoPT 24.11.2022 para 2.3; 2025 Rule 7 Note 4

Current restatement: A Central Government servant joining another government post after technical resignation may carry LTC entitlement forward. Records of occasions already used must move too; carry-forward between offices is not a new block or a second reimbursement.

Simple city Hinglish: Eligible technical resignation par LTC carry, used trips bhi record hon.

Immediate hypothetical example: New office se same used trip repeat nahi.

Watch out: This is office-to-office preservation, not Rule 10 grace-year extension.

Evidence: T22;G25

B4-14 — The initial appointment date does not restart

Exact reference: DoPT 24.11.2022 para 2.3: eight-year period

Current restatement: A qualifying move within eight years preserves fresh-recruit treatment for the remainder of eight years from the INITIAL government appointment, not a fresh eight years at each new department. The consolidation itself gives four years served plus four remaining as illustration.

Simple city Hinglish: Fresh recruit eight years initial appointment se; reset nahi.

Immediate hypothetical example: Four served, four remain; eight new nahi.

Watch out: Exact personal occasion accounting is taught in Batch 5.

Evidence: T22;G25

B4-15 — Prior private work is not automatically Central service

Exact reference: Rule 7(1); DoPT 24.11.2022 para 2.3: lateral-entry comparison

Current restatement: Do not treat previous private/PSU/State employment as continuous Central service or a preserved Central fresh-recruit cycle merely because it was called government-related. Examine actual appointment/deputation and any applicable service-preservation instruction; AIS and autonomous-body deputation have distinct rules.

Simple city Hinglish: Private service automatically Central qualifying service nahi.

Immediate hypothetical example: Private firm ke five years se Central one year gate satisfy nahi.

Watch out: Not a blanket denial of every specially authorised deputation/service-continuity benefit.

Evidence: H;T22

B4-16 — Suspension: no self LTC

Exact reference: Rule 7 GID (15); FAQ 12: employee

Current restatement: A suspended employee cannot avail self LTC: leave, including casual leave, is not available during suspension. Suspension is not retirement/resignation; family eligibility is separately preserved because service continues.

Simple city Hinglish: Suspension mein self LTC nahi.

Immediate hypothetical example: Ravi suspended hai; apna holiday self LTC na claim kare.

Watch out: Do not invent a right to cure suspension by applying for casual leave.

Evidence: H;G25;F25

B4-17 — Suspension: eligible family may still travel

Exact reference: Rule 7 GID (15); FAQs 12 and 26: family

Current restatement: Family remains eligible during employee suspension, subject to normal family/block conditions. Employee need not personally travel or obtain leave for a family-only journey. This is not a second independent family scheme or a change of the accepted hometown.

Simple city Hinglish: Suspension mein eligible family LTC, employee ko leave nahi chahiye.

Immediate hypothetical example: Ravi ghar par, spouse hometown; normal family block use hoga.

Watch out: Ordinary eligibility survives; dismissal/removal and other restrictions require their own analysis.

Evidence: H;G25;F25

B4-18 — Starting away from HQ does not remove the cap

Exact reference: Rule 7 GID (1), route/actual-distance opening; OM 11.10.1956

Current restatement: The normal hometown journey is to home and back but need not start/end at HQ. Assistance for actual distance travelled is limited to the amount admissible for the HQ-home journey. Apply later specific exceptions, notably the 2017 family-to-HQ concession, rather than mechanically overriding them.

Simple city Hinglish: Normal actual fare HQ hometown cap ke andar; specific exceptions alag.

Immediate hypothetical example: Actual four thousand, cap three: ceiling three thousand.

Watch out: Figures are illustrative; no universal rupee ceiling. Rule 13 details follow later.

Evidence: H;G25

B4-19 — Entitlement is time-specific

Exact reference: Rule 7 GID (1), rail-class paragraph; 2025 Note 1(ii)

Current restatement: Rail accommodation class for employee/family is the class admissible under the normal rules WHEN THE JOURNEY IS UNDERTAKEN. Sanction date, joining date and a later promotion do not replace that test; apply the current Rule 12 framework rather than obsolete pay tables.

Simple city Hinglish: Rail class journey time ki entitlement se decide hoti hai.

Immediate hypothetical example: Later promotion se earlier travel class upgrade nahi.

Watch out: Different legs may require their own date-specific examination.

Evidence: H;G25

B4-20 — Inform the CO before travelling

Exact reference: Rule 7 GID (1), prior-intimation paragraph; 2025 Note 1(iii)

Current restatement: Inform the Controlling Officer before journeys for which LTC assistance will be claimed. This is distinct from sanctioning leave, declaring the All-India destination under Rule 6, or drawing an advance.

Simple city Hinglish: Journey se pehle Controlling Officer ko inform karo.

Immediate hypothetical example: Ticket booking ki, par prior office intimation bhi chahiye.

Watch out: A ticket booking is not by itself a declaration or approval.

Evidence: H;G25

B4-21 — A booking is not proof of travel

Exact reference: Rule 7 GID (1), actual-journey evidence paragraph

Current restatement: Produce evidence of actually performing the journey, such as ticket serial numbers and applicable records. A booked but cancelled ticket is not actual travel. Particular proof/boarding-pass instructions are addressed in the procedure batch; no new universal affidavit substitute is created here.

Simple city Hinglish: Actual journey evidence do, booking alone enough nahi.

Immediate hypothetical example: Cancelled email ticket se actual trip prove nahi.

Watch out: Evidence must support the actual persons, dates and route claimed.

Evidence: H;G25

B4-22 — Keep an assistance record and outward dates

Exact reference: Rule 7 GID (1), assistance-record paragraph

Current restatement: Maintain all assistance granted: the historical instruction places gazetted-officer records with the Accounts Officer and non-gazetted entries in service books/appropriate records, including outward home-journey commencement dates. Follow the applicable current record system; modern digital systems do not justify no audit trail.

Simple city Hinglish: Gazetted ka Accounts record, others ka service record; outward dates rakho.

Immediate hypothetical example: Transfer par old LTC dates new office ko dein.

Watch out: The allocation is the source wording, not a claim that every modern office uses paper only.

Evidence: H;G25

B4-23 — Record both use and non-use of LTC

Exact reference: Rule 7 GID (1), every-leave entry; 2025 Note 1(iv)

Current restatement: The service-record custodian must indicate on every occasion of leave entered in that record whether travel assistance was or was not availed. The requirement concerns leave entered in that record, not an invented service-book entry for every casual-leave day.

Simple city Hinglish: Recorded leave par LTC li ya nahi, custodian record kare.

Immediate hypothetical example: Earned leave mein LTC nahi li; non use bhi note ho.

Watch out: This helps prevent duplicate claims, but is not the only eligibility check.

Evidence: H;G25

B4-24 — Foreign hometown: limited Indian-side assistance

Exact reference: Rule 7 GID (3), hometown outside India; OM 04.09.1957

Current restatement: A foreign hometown may be declared subject to CO satisfaction. Assistance is limited to shortest-route travel up to/from the Indian railway station nearest hometown, or the railway station for the Indian port of embarkation/disembarkation nearest hometown. It is not foreign-side or international-airfare reimbursement.

Simple city Hinglish: Foreign hometown assistance specified Indian railhead ya nearest port station tak.

Immediate hypothetical example: Foreign hometown ka full international fare nahi.

Watch out: Nearest port means the Indian port nearest the hometown, not any convenient gateway.

Evidence: H;G25

B4-25 — Separate family claims: do not erase one-leg exceptions

Exact reference: Rule 7 GID (3), separate-claims paragraph, read with GID (5)

Current restatement: Employee/family travelling separately may present separate claims; the normal instruction requires each claim for outward and inward journeys. Read the express single-leg situations in GID (5), fully taught in Batch 2, rather than imposing an absolute two-leg bar.

Simple city Hinglish: Separate round trip claims possible; express one leg exceptions bhi hain.

Immediate hypothetical example: Qualifying new spouse return only claim reject nahi.

Watch out: Do not invent transfer/retirement as an automatic single-leg exemption.

Evidence: H

B4-26 — Transfer via hometown: incremental distance only

Exact reference: Rule 7 GID (7)(i), regularisation (a); OM 19.07.1960

Current restatement: Old HQ to hometown on regular leave, then to new HQ: minimum transfer TA under SR 124/126, as applicable. Additional LTC is only to the extent the combined via-hometown distance exceeds the distance for which transfer TA is admissible, subject to applicable fares/entitlement. Distance arithmetic is not a second payment for the same segment.

Simple city Hinglish: Via home excess distance beyond transfer TA hi additional LTC basis hai.

Immediate hypothetical example: Twelve hundred via home, eight hundred covered: four hundred extra.

Watch out: Illustrative kilometres, not reimbursement at an invented per-kilometre rate.

Evidence: H;G25

B4-27 — You may preserve LTC instead of charging a tiny excess

Exact reference: Rule 7 GID (7), regularisation (a), option and advance paragraphs

Current restatement: An employee may elect not to avail LTC in the combination, preserving an available occasion within its block subject to conditions. Exercise the option for self and family when preferring the transfer-TA claim. If LTC is not availed, adjust any LTC advance against TA entitlement. The old compilation has a broken sentence before this option; do not invent its missing words.

Simple city Hinglish: Transfer claim par self family option do; unused LTC advance TA mein adjust.

Immediate hypothetical example: Small excess par LTC preserve, advance settle.

Watch out: An election is not permission to claim already-paid TA again as LTC.

Evidence: H

B4-28 — Tour station -> hometown -> HQ

Exact reference: Rule 7 GID (7)(ii)(a), regularisation (b)

Current restatement: With proper prior permission, HQ-to-tour-station travel attracts tour TA. Tour station to hometown and back to HQ is considered for LTC, deeming tour station the onward starting point, subject to the usual admissible assistance ceiling referenced in the instruction.

Simple city Hinglish: Prior permission: tour to home to HQ LTC; HQ to tour official TA.

Immediate hypothetical example: Delhi tour, Jaipur home, Mumbai HQ: legs separate karo.

Watch out: Not unrestricted reimbursement of every tour detour.

Evidence: H

B4-29 — HQ -> hometown -> tour station -> HQ

Exact reference: Rule 7 GID (7)(ii)(b), regularisation (c)

Current restatement: With proper prior permission, LTC as admissible covers HQ to hometown; tour TA covers hometown to tour station and back to HQ, regulated under the governing tour rules. Do not replace the split with two full overlapping round-trip claims.

Simple city Hinglish: Prior permission: HQ to home LTC; home to tour to HQ official TA.

Immediate hypothetical example: Mumbai Jaipur Delhi route ka double fare nahi.

Watch out: Actual admissible tour TA still requires Finance instructions.

Evidence: H

B4-30 — A specific Joint Secretary approval safeguard

Exact reference: Rule 7 GID (7), extract of Finance OM 23.04.1948

Current restatement: The cited safeguard deals with transfer of charge of office elsewhere than HQ: orders in such cases must be issued by an officer not below Joint Secretary of a Government of India Ministry or embody that officer's approval. GID (7) directs compliance in its tour-combination cases. It is not a new universal Joint Secretary sanction rule for all LTC.

Simple city Hinglish: HQ ke bahar charge transfer par prescribed Joint Secretary approval check karo.

Immediate hypothetical example: Charge elsewhere transfer hua; approval verify karo.

Watch out: Do not confuse this precise safeguard with general LTC sanction authority.

Evidence: H

B4-31 — All-India LTC may also combine with tour/transfer

Exact reference: OM 31011/3/2006, 07.02.2007 paras 1-4; Rule 7 GID (7)

Current restatement: The 1960 combination provisions extend to All-India LTC. Tour/transfer TA remain governed by Finance instructions. Effective from issue, including then-pending claims; already decided past cases were not reopened. Audit and Accounts personnel were included after CAG consultation. These

historical transition words are not a fresh reopening right.

Simple city Hinglish: All India par bhi combination rules; TA Finance instructions se regulate. Audit staff bhi included.

Immediate hypothetical example: Transfer plus Kochi LTC mein common fare duplicate nahi.

Watch out: Full reproduced OM is on a non-government host; 2025 official consolidation corroborates the extension.

Evidence: H;G25;C07

B4-32 — Mission staff returning to the same foreign post

Exact reference: Rule 7 GID (8)(i); OM 06.07.1959

Current restatement: For India-based officers/staff in Indian Missions/Posts abroad coming on home leave and returning to the same post, the Indian port of disembarkation on the approved route is the LTC starting point; reimbursement is at par with eligible employees in India. Local recruits remain excluded under Rule 1.

Simple city Hinglish: Same foreign post return: approved Indian disembarkation port LTC anchor.

Immediate hypothetical example: London Mumbai Jaipur: London leg LTC nahi.

Watch out: Do not generalise the Nepal rail-station anchor to all foreign postings.

Evidence: H;G25

B4-33 — Mission -> Indian port -> home -> new Indian HQ

Exact reference: Rule 7 GID (8)(ii)(a): transfer to India

Current restatement: Transfer to an Indian post via hometown: minimum transfer TA under applicable IFS Rules; additional LTC only for via-home distance from port of disembarkation to new HQ exceeding transfer-TA-covered distance. Where home lies en route or excess is negligible, claiming only transfer TA is preferable.

Simple city Hinglish: India transfer: IFS transfer TA beyond via home excess hi LTC.

Immediate hypothetical example: Port home HQ: same fare double nahi.

Watch out: Current IFS/TA rates must be checked separately; this is not an international fare sanction.

Evidence: H

B4-34 — Indian HQ -> home -> port -> overseas post

Exact reference: Rule 7 GID (8)(ii)(b): transfer from India

Current restatement: Transfer from an Indian post to a foreign post via hometown: minimum IFS transfer TA; additional LTC only for Indian HQ-home-port distance exceeding transfer-TA-covered distance. Home en route/negligible excess favours transfer TA alone.

Simple city Hinglish: Foreign transfer: Indian HQ home port excess hi additional LTC.

Immediate hypothetical example: Delhi Jaipur Mumbai port; transfer covered fare repeat nahi.

Watch out: The foreign leg is not automatically converted into LTC.

Evidence: H

B4-35 — Foreign-to-foreign transfer via India

Exact reference: Rule 7 GID (8)(iii): transfer between foreign posts

Current restatement: Transfer to another foreign country via India: minimum applicable IFS transfer TA, with additional LTC only for Indian disembarkation-port to home to embarkation-port distance exceeding transfer-TA coverage. If home is en route/negligible excess, transfer TA throughout and no LTC is the advantageous stated alternative.

Simple city Hinglish: Foreign posts ke beech Indian port home port excess calculate karo.

Immediate hypothetical example: Mumbai entry, Jaipur home, Delhi exit: overlap deduct.

Watch out: Being in India between postings does not create a new LTC occasion.

Evidence: H

B4-36 — Nepal Aid Programme: nearest Indian railway station

Exact reference: Rule 7 GID (10), first sentence; OMs 10.09.1959/14.03.1980

Current restatement: For Indian Aid Mission staff and other personnel sent to Nepal under India's Aid Programme, the Indian commencement/end point is the nearest railway station in India to the Nepal posting, from which onward/return travel actually occurs. Do not substitute any convenient airport.

Simple city Hinglish: Nepal Aid posting: nearest actual Indian railway station anchor.

Immediate hypothetical example: Nearest station X; convenient airport Y substitute nahi.

Watch out: Not an instruction covering every person employed anywhere in Nepal.

Evidence: H;G25

B4-37 — Nepal return-transfer: split at hometown

Exact reference: Rule 7 GID (10), home-leave-cum-transfer paragraph

Current restatement: On home-leave-cum-transfer to India: entry point to hometown is LTC; hometown to new HQ is transfer TA capped at direct Indian-entry-point-to-HQ entitlement. If home is en route, only transfer TA throughout is preferable and no LTC is then admissible.

Simple city Hinglish: Entry to home LTC; home to HQ transfer TA direct entry HQ cap tak.

Immediate hypothetical example: Home en route ho toh transfer TA only option check karo.

Watch out: This specific split differs from a generic full round-trip assumption.

Evidence: H

B4-38 — AIS deputation: no Centre/State duplicate block

Exact reference: Rule 7 GID (11), first paragraph; OM 15.07.1969

Current restatement: AIS officer/family cannot claim a block at the Centre already availed under the State before deputation; on return to State, a block already availed while serving Union cannot be claimed again. Check member-wise usage and governing AIS framework; this is not a blanket migration of every AIS condition into CCS.

Simple city Hinglish: AIS Centre State move par same used block duplicate nahi.

Immediate hypothetical example: State LTC used; Central deputation se block reopen nahi.

Watch out: Family claims and block records must travel with the officer.

Evidence: H

B4-39 — AIS: cost while serving the Centre

Exact reference: Rule 7 GID (11), expenditure during deputation

Current restatement: Expenditure for concessions actually availed by AIS officers and/or family during Central deputation is borne by the Central Government under the instruction.

Simple city Hinglish: Central deputation mein availed AIS LTC ka expense Centre bear kare.

Immediate hypothetical example: Family Central deputation mein travelled: Centre liability.

Watch out: Financial liability and eligibility are different questions.

Evidence: H

B4-40 — AIS: unused entitlement after return to State

Exact reference: Rule 7 GID (11), earned-but-unused concession

Current restatement: Concession earned during Central deputation but not availed during that deputation has its expenditure borne by the State Government concerned when availed in the relevant situation. A preserved liability allocation does not override block/expiry rules.

Simple city Hinglish: Central deputation ka earned unused concession expense concerned State ka.

Immediate hypothetical example: Reversion ke baad valid use par automatic Centre bill nahi.

Watch out: The instruction allocates cost; it does not create unlimited carryover.

Evidence: H

B4-41 — Non-top PSU deputation: choose one scheme

Exact reference: Rule 7 GID (12), opening; OM 07.07.1971

Current restatement: For deputation to OTHER THAN top PSU posts, employee may choose the corresponding PSU employees' concession or Central rules, whichever is more favourable. This is an election, not a hybrid of the best parts of both schemes.

Simple city Hinglish: Non top PSU par PSU ya Central option, dono mix nahi.

Immediate hypothetical example: Central fare plus PSU extra occasion combine nahi.

Watch out: Top-level posts have a different instruction.

Evidence: H;G25

B4-42 — PSU/Centre transitions do not duplicate LTC

Exact reference: Rule 7 GID (12), same-block prohibition in both directions

Current restatement: If self/family already availed Central concession in the two-year block, PSU concession is not again available for those persons for that block; conversely PSU usage prevents a repeat Central concession on reversion for that block. Preserve actual records and later applicable block mechanics.

Simple city Hinglish: Centre PSU aur return par used block duplicate nahi.

Immediate hypothetical example: Central family trip used; same block PSU repeat nahi.

Watch out: Do not read an office move as a new personal LTC block.

Evidence: H

B4-43 — Unused PSU option on reversion

Exact reference: Rule 7 GID (12), option not actually availed

Current restatement: If the officer chose the PSU scheme but could not actually avail it during the deputation, on reversion the concession for an available particular block is under Central rules only. Merely selecting an option is not proof a journey occurred.

Simple city Hinglish: PSU option unused ho, reversion par available block Central rules se.

Immediate hypothetical example: Form sign hua, trip nahi; actual use alag fact hai.

Watch out: Availability still depends on the block and other conditions.

Evidence: H

B4-44 — A PSU rule revision can reopen the option

Exact reference: Rule 7 GID (14); OM 16.01.1976

Current restatement: A fresh option may be allowed when the PSU revises its LTC rules after the deputationist joined and exercised the earlier 1971 option. It is not an unrestricted right to switch whenever a preferred trip arises.

Simple city Hinglish: PSU later LTC rules revise kare, fresh option allow ho sakta hai.

Immediate hypothetical example: Earlier option ke baad revision hua; office reconsider kare.

Watch out: May be allowed does not mean both schemes can be claimed simultaneously.

Evidence: H;G25

B4-45 — Top PSU post with its own concession

Exact reference: Rule 7 GID (16), PSU has LTC; OM 06.03.1984

Current restatement: For a top-level PSU deputation, if the undertaking has its LTC concession, deputationist government employees are entitled only to that concession under this instruction. Do not apply the non-top favourable-option rule automatically.

Simple city Hinglish: Top PSU post mein PSU LTC ho toh wahi concession.

Immediate hypothetical example: Top Director par non top option blindly nahi.

Watch out: Identify top/non-top status from applicable deputation terms.

Evidence: H;G25

B4-46 — Top PSU post without LTC: express provision needed

Exact reference: Rule 7 GID (16), no PSU LTC and express foreign-service terms

Current restatement: Where top-level PSU has no LTC, Central-type LTC requires an express admissibility provision in the foreign-service order. Absence of a PSU scheme alone is not sufficient sanction.

Simple city Hinglish: Top PSU mein LTC nahi: express foreign service order provision chahiye.

Immediate hypothetical example: Order silent: Central LTC automatic nahi.

Watch out: Foreign service here is an employment/deputation term, not necessarily posting abroad.

Evidence: H;G25

B4-47 — Modify terms where necessary; PSU pays

Exact reference: Rule 7 GID (16), existing deputations and cost

Current restatement: For officers already on foreign service with undertakings lacking LTC, consult the undertaking to modify deputation terms suitably. The undertaking bears the concession cost in all these cases; eligibility does not shift liability to an arbitrary Central office.

Simple city Hinglish: Existing terms PSU consultation se modify hon; cost PSU ka.

Immediate hypothetical example: Provision add hua; parent Ministry par automatic debit nahi.

Watch out: An application for amendment is not itself the completed amendment.

Evidence: H

B4-48 — Study leave: self, actual fare versus HQ ceiling

Exact reference: Rule 7 GID (17)(a); OM 30.03.1988

Current restatement: Self may avail LTC from study-leave station to hometown/any place in India, limited to admissible HQ-to-destination fare or actual expenditure, whichever less. Study leave does not create an

unlimited fare from a distant study location.

Simple city Hinglish: Study self: actual fare ya HQ destination admissible cap, jo less.

Immediate hypothetical example: Actual eight thousand, cap five: ceiling five thousand.

Watch out: Hypothetical figures; eligible class/route and available occasion also matter.

Evidence: H;G25

B4-49 — Study leave: family staying at study station

Exact reference: Rule 7 GID (17)(b)(i)

Current restatement: Family living with the employee at the study-leave place uses the same actual-versus-HQ ceiling as clause (a); family-definition and dependency conditions are still applicable.

Simple city Hinglish: Study station par saath family: clause A wala cap.

Immediate hypothetical example: Family Pune study station par; HQ ceiling ignore nahi.

Watch out: Study leave does not convert an ineligible relative into family.

Evidence: H

B4-50 — Study leave: family not at study station

Exact reference: Rule 7 GID (17)(b)(ii)

Current restatement: Family not staying at the study station is regulated under normal LTC terms, including later applicable family-away-from-HQ and 2017 HQ-visit instructions. Do not apply study-station origin mechanically.

Simple city Hinglish: Family study station par nahi: normal later family terms.

Immediate hypothetical example: Study Pune, family Jaipur; family origin Pune invent nahi.

Watch out: The 2017 qualifying family-to-HQ full-fare rule remains relevant.

Evidence: H;G25

B4-51 — Training: flag the apparently automatic-HQ sentence

Exact reference: Rule 7 GID (20)(i), read with (ii); OM 07.08.1965

Current restatement: Clause (i) calls training station automatically HQ, but detailed clause (ii) says original HQ normally continues unless competent authority changes it under SR 59. The 2025 summary repeats the tension. Do not apply the isolated automatic line to every trainee; examine the actual competent SR 59/HQ order and detailed rule, and refer unresolved disputes to the competent office.

Simple city Hinglish: Automatic HQ line isolated nahi; clause two aur SR fifty nine check karo.

Immediate hypothetical example: Delhi HQ, Pune course: venue alone HQ shift nahi.

Watch out: Source inconsistency is disclosed, not certified away by an invented amendment.

Evidence: H;G25

B4-52 — Training with an authorised HQ change

Exact reference: Rule 7 GID (20)(ii): SR 59 headquarters change

Current restatement: Normally retain original HQ; if competent authority changes it under SR 59 for tour TA, the new HQ is reckoned for LTC too. Distinguish an authorised HQ change from travel to a temporary training venue.

Simple city Hinglish: Competent SR fifty nine change se new HQ LTC mein reckon hoga.

Immediate hypothetical example: Valid Pune HQ order: old Delhi blindly nahi.

Watch out: The training order and the HQ-change authority are not automatically interchangeable.

Evidence: H;G25

B4-53 — Unchanged HQ: self travels from training station

Exact reference: Rule 7 GID (20)(ii): domestic training, self

Current restatement: If HQ unchanged during Indian training, trainee is on tour from original HQ under SR 164. On regular leave, self LTC is from training place to hometown and back to training place OR HQ on expiry of regular leave, as applicable, subject to the governing combination/entitlement rules.

Simple city Hinglish: Unchanged HQ domestic self: regular leave, training home, return training ya HQ.

Immediate hypothetical example: Pune Jaipur Delhi return; relevant legs verify karo.

Watch out: This is not the same as foreign-training full international fare.

Evidence: H

B4-54 — Unchanged HQ: family’s starting point

Exact reference: Rule 7 GID (20)(ii): domestic training, family

Current restatement: For the unchanged-HQ domestic-training situation, the family's onward starting point continues to be the employee's HQ. Later applicable family-residence/HQ-visit rules must also be reconciled; no new universal requirement to reside at HQ is created.

Simple city Hinglish: Domestic family original HQ anchor; later family residence rules bhi check.

Immediate hypothetical example: Self Pune se, family Delhi anchor; same origin assume nahi.

Watch out: Read with the later 1987/2017 family instructions, not obsolete co-residence language.

Evidence: H;G25

B4-55 — Foreign training: government liability is capped

Exact reference: Rule 7 GID (20)(iii): foreign training, self

Current restatement: For training abroad, self liability is limited to what Government would have borne for hometown-return travel from the HQ from which training began or the HQ declared under SR 59. Training abroad does not automatically fund all international flights under LTC.

Simple city Hinglish: Foreign training self: original ya SR fifty nine HQ hometown return cap.

Immediate hypothetical example: London training flight ka full fare automatic nahi.

Watch out: A ceiling is not an additional international travel permission.

Evidence: H;G25

B4-56 — Foreign training: family anchor remains in India

Exact reference: Rule 7 GID (20)(iii): foreign training, family

Current restatement: For family, HQ from which the employee left for foreign training is the stated onward starting point. Reconcile later family-residence and HQ-visit instructions instead of automatically making the overseas training address a new unrestricted origin.

Simple city Hinglish: Foreign training family: training se pehle HQ onward anchor; later rules apply.

Immediate hypothetical example: Delhi to London training; family anchor simply London nahi.

Watch out: Batch 2's short comparison is expanded here, not erased.

Evidence: H;G25

B4-57 — Escort condition 1: prior HoD approval each time

Exact reference: Rule 7 GID (19)(i); OM 09.07.1991

Current restatement: Escort LTC for the eligible single employee with disability requires prior Head-of-Department approval on EACH occasion. Approval for a past trip does not become a standing permission.

Simple city Hinglish: Har escort occasion par prior HoD approval.

Immediate hypothetical example: New trip par fresh prior approval lo.

Watch out: Respectful terminology is used; source heading retains older language.

Evidence: H;G25

B4-58 — Escort condition 2: disability must necessitate help

Exact reference: Rule 7 GID (19)(ii)

Current restatement: The physical disability must necessitate an escort for the journey; in doubt the HoD's decision is final under this instruction. Do not invent a universal disability-percentage threshold not stated here.

Simple city Hinglish: Disability se escort necessary ho; doubt mein HoD final.

Immediate hypothetical example: Ravi ko journey help essential; authority facts examine kare.

Watch out: The escort concession and taxi relaxation are distinct provisions.

Evidence: H

B4-59 — Escort condition 3: no adult family member

Exact reference: Rule 7 GID (19), printed (3), register (iii)

Current restatement: The instruction says the employee does NOT HAVE an adult family member. Do not silently soften this to an existing adult member being temporarily unavailable, or equate single only with unmarried status.

Simple city Hinglish: Adult family member nahi ho; busy hona same test nahi.

Immediate hypothetical example: Adult family busy: condition automatic pass nahi.

Watch out: Any relaxation would need its own competent legal basis; no automatic waiver is taught.

Evidence: H

B4-60 — Escort condition 4: use available fare concessions

Exact reference: Rule 7 GID (19), printed (4), register (iv)

Current restatement: Employee and escort must avail any rail/bus fare concessions extended by Railways/State Roadways in the relevant case. Reimbursement is not an invented flat full fare when a required applicable concession reduces the paid amount.

Simple city Hinglish: Employee escort applicable Railways State Roadways concessions use karein.

Immediate hypothetical example: Concessional fare paid; full regular fare bill nahi.

Watch out: No universal current concession rate is asserted here.

Evidence: H

B4-61 — Escort condition 5: no other LTC-entitled companion

Exact reference: Rule 7 GID (19), printed (5), register (v)

Current restatement: No other person entitled to LTC should accompany the employee on the journey under this escort provision. All five safeguards apply; satisfying one is not enough.

Simple city Hinglish: Koi aur LTC entitled person accompany na kare; all five conditions apply.

Immediate hypothetical example: LTC eligible companion saath: extra escort automatic nahi.

Watch out: Do not confuse an escort with an independently entitled family member.

Evidence: H

B4-62 — Posted in specified regions; family left behind

Exact reference: OM 24.04.2018 para 4; 2025 Rule 7 Note 14(i)

Current restatement: Civilian Central staff SERVING in NER, UT Ladakh, A&N or Lakshadweep, leaving family at old HQ/selected residence without family transfer TA, qualify for the stated option framework. It is not all of J&K and not merely tourists visiting the region. The 2018 text uses pre-reorganisation geography; the 2020 clarification identifies UT Ladakh.

Simple city Hinglish: NER, Ladakh, A and N, Lakshadweep posting; family left behind, family transfer TA nahi.

Immediate hypothetical example: Lakshadweep posted, family Delhi; tourist visit alag case.

Watch out: Detailed original copies examined on non-government host; official 2025 summary corroborates the framework.

Evidence: G25;P18;P20

B4-63 — Normal LTC OR the annual alternative—not both

Exact reference: OM 24.04.2018 paras 4(i)/(ii)

Current restatement: Option (i) is normal hometown/All-India LTC under normal rules. Option (ii) is IN LIEU thereof annual reciprocal visits. The master incorrectly suggests annual benefits simply stack over ordinary entitlements. Normal All-India substitution/availability rules remain relevant.

Simple city Hinglish: Normal scheme ya annual alternative; in lieu, bonus nahi.

Immediate hypothetical example: Annual option li; normal quota automatically add nahi.

Watch out: Emergency Passage is separately additional; distinguish it from the annual alternative.

Evidence: P18;G25

B4-64 — Annual alternative: employee’s visit

Exact reference: OM 24.04.2018 para 4(ii), employee journey

Current restatement: Under the annual alternative, employee may travel once a year from station of posting to hometown OR the place the family resides. This is not a free choice of any tourist destination.

Simple city Hinglish: Annual self once: posting se hometown ya family residence.

Immediate hypothetical example: Ladakh posting, family Delhi: random Goa nahi.

Watch out: Eligibility and election conditions from para 4 still apply.

Evidence: P18

B4-65 — Annual alternative: family visits the employee

Exact reference: OM 24.04.2018 para 4(ii), family journey

Current restatement: Under that alternative, family—restricted to spouse and dependent children within the CCS family definition—may once a year visit the employee at posting station. Parents/other ordinarily eligible relations are not automatically included in this special restricted family limb.

Simple city Hinglish: Annual family: spouse dependent children posting station visit.

Immediate hypothetical example: Parent ordinary family ho, special annual limb automatic nahi.

Watch out: Do not use the old two-child wording to override current Rule 4 exceptions.

Evidence: P18;G25

B4-66 — Emergency Passage: two additional career occasions

Exact reference: OM 24.04.2018 para 5; 28.02.2020 para 1

Current restatement: For eligible employees/family left behind in these postings, Emergency Passage is for an EMERGENCY, two additional occasions in the ENTIRE service career, not two each year/block. Family is restricted to spouse/dependent children; normal entitled mode/class applies. It is not a special automatic air upgrade.

Simple city Hinglish: Emergency: two additional career occasions, restricted family, normal mode class.

Immediate hypothetical example: Two used; new block se quota reset nahi.

Watch out: Not an extra holiday allowance for every ordinarily defined relative.

Evidence: P18;P20;G25

B4-67 — Emergency destination clarification; effective-date distinction

Exact reference: OM 28.02.2020 para 3; 24.04.2018 para 6

Current restatement: The employee may use Emergency Passage for hometown OR the selected family-residence place declared for the duration of that posting/transfer. The 2018 package expressly took effect 01.07.2017; the 2020 clarification is not the original creation of every Emergency Passage benefit.

Simple city Hinglish: Emergency mein hometown ya declared posting duration family residence.

Immediate hypothetical example: Family Delhi declared: emergency mein Delhi possible.

Watch out: 01.07.2017 is the 2018 package effective date, not a universal commencement date for every earlier order.

Evidence: P18;P20

B4-68 — Spouses together need not use the obsolete one-claim model

Exact reference: Rule 7 GID (18); OM 08.05.1990, comparison only

Current restatement: The 1990 operative decision permits separate hometowns/independent family claims even when government spouses live together, with self and children anti-duplication conditions. The master's mandatory common-hometown shorthand is superseded, not a new 2025 restriction. Detailed spouse administration remains Batch 12; Batch 2 already teaches the operative choice.

Simple city Hinglish: Saath rehne par bhi separate hometown option; self children duplicate nahi.

Immediate hypothetical example: Ravi Neha one house: separate option deny nahi.

Watch out: This comparison does not certify all spouse/railway-pass scenarios.

Evidence: H;G25

B4-69 — Normal LTC is not two hometown PLUS one All-India

Exact reference: Rule 8(b); 2025 Rule 7 Note 13; fresh-recruit comparison only

Current restatement: For an HT-eligible regular employee, All-India is in lieu of an available hometown occasion, not an extra third regular concession. Fresh recruits have the conditional 3-HT/1-AI pattern in each of their first two applicable personal cycles. Complete first-eligibility, transition and HQ=hometown tables are Batch 5, not replaced here.

Simple city Hinglish: Regular two hometown plus extra All India nahi; fresh recruit pattern separate.

Immediate hypothetical example: Normal employee three trips automatically claim nahi kare.

Watch out: The master's normal 2+1 description is corrected, not carried into the video.

Evidence: H;G25;F25

B4-70 — No bill does not automatically restore a used occasion

Exact reference: Rule 9 read with Rule 10 and FAQ 22: actual LTC versus nil fare

Current restatement: For an actual availed LTC journey, outward commencement assigns the block; simply not filing a fare bill does not establish unused entitlement. The official FAQ even recognises qualifying nil-fare LTC for encashment. Do not claim Rule 9 literally contains a universal defined phrase “deemed availment”, or treat every private trip as LTC. Facts of declaration/leave/travel matter; encashment conditions remain for Batch 11.

Simple city Hinglish: Actual availed LTC par no bill se occasion automatically unused nahi.

Immediate hypothetical example: Declared performed nil fare trip; same occasion repeat assume nahi.

Watch out: This is a practical application, not an invented new Rule 9 subrule.

Evidence: H;F25

B4-71 — Cancelled booking is different from actual travel

Exact reference: Rule 9; Rule 15 cancellation/adjustment context

Current restatement: Sanction/booking without performing the LTC journey does not by itself mean an occasion was availed. Refund/adjust any advance and have cancellation/non-use correctly recorded. Do not promise that an expired block can now be revived or that every advance deadline is waived.

Simple city Hinglish: Travel nahi hui: booking alone use nahi; advance settle, cancellation record.

Immediate hypothetical example: Tickets cancel, journey zero: performed nil claim se alag.

Watch out: Detailed advance deadlines and claim relaxation are later Batch 11 topics.

Evidence: H

B4-72 — Deputation reversion: who grants the advance?

Exact reference: Rule 15 GID (1)(a); OM 07.12.1965

Current restatement: Officer goes on leave immediately on reversion and joins parent office after leave. Leave application mentions LTC; borrowing department forwards it to lending department for sanction and advises intended advance. After leave-sanction intimation, borrowing department's TA Controlling Officer sanctions admissible advance, copies lending department, which watches adjustment.

Simple city Hinglish: Lending office leave; borrowing TA Controlling Officer advance, copy lending ko.

Immediate hypothetical example: Reversion par seedha leave: offices coordinate karein.

Watch out: This is a cross-reference under Rule 15, not an invented Rule 7 subclause.

Evidence: H;G25

B4-73 — Reversion procedure also covers family-only travel

Exact reference: Rule 15 GID (1)(b)

Current restatement: The same procedure applies when reverting officer travels alone or with any/all family, and when any/all family travel without employee during the relevant leave period. It is not restricted to an employee-accompanied family.

Simple city Hinglish: Same reversion procedure self, self family, family only par.

Immediate hypothetical example: Employee travel nahi, spouse kare; coordination phir bhi.

Watch out: The specifically described reversion/leave context remains necessary.

Evidence: H

B4-74 — Advance adjusts to the ultimately liable office

Exact reference: Rule 15 GID (1)(c)

Current restatement: Advance paid by the borrowing department is adjusted against the account of the office/department ultimately liable for the LTC expenditure. The paying office is not necessarily the ultimate cost bearer.

Simple city Hinglish: Borrowing advance ultimately liable office account mein adjust.

Immediate hypothetical example: Borrowing office paid; liable office ko final debit.

Watch out: Do not generalise AIS or PSU cost allocations to every deputation.

Evidence: H

B4-75 — Indian Railways e-ticket booking charges

Exact reference: 2025 Rule 13 Note 4; FAQ 41; chapter 15 cross-reference

Current restatement: Charges for rail Internet/e-ticketing through Indian Railways' website may be reimbursed for qualifying official-tour/LTC railway journeys. This is not permission for fees on any private booking or an unrestricted private-agent invoice.

Simple city Hinglish: Qualifying rail LTC: Indian Railways website e ticket charge allowed.

Immediate hypothetical example: Private holiday booking charge same permission nahi.

Watch out: Full Rule 13 reimbursement mechanics are Batch 10.

Evidence: G25;F25

B4-76 — Rail website charge ≠ private agent's fee

Exact reference: 2025 Rule 13 Note 5: travel-agent service charges

Current restatement: Service charges paid to recognised Travellers' Service Agents for LTC ticket booking are not reimbursable under this note. Distinguish those charges from the railway e-ticket charge and from specific ATA ticket-booking rules taught later.

Simple city Hinglish: Agent fee aur railway website charge alag.

Immediate hypothetical example: Agent extra five hundred: railway charge approval enough nahi.

Watch out: Do not silently turn this into a complete decision on every separately regulated ATA component.

Evidence: G25

B4-77 — Government levies follow an eligible journey

Exact reference: 2025 Rule 13 Note 6; FAQ 43; Finance OM 18.07.2007

Current restatement: Government-imposed taxes/cess and similar statutory levies on eligible air/road/rail/steamer travel are reimbursable. Service Tax/Education Cess are historical labels in the instruction, not current universal rates. This does not reimburse optional agents' fees or make an otherwise ineligible base fare admissible.

Simple city Hinglish: Eligible fare ka statutory tax allowed; optional agent fee alag.

Immediate hypothetical example: Ravi ka statutory tax allowed; private agent fee nahi.

Watch out: No current tax percentage or obsolete tax regime is asserted.

Evidence: G25;F25

Sources and evidence limits

H: Government-hosted CCS (LTC) Rules compilation: Rules 4(e), 5, 6; Rule 5 GID (1); Rule 7 GID (4)

https://cdnbbsr.s3waas.gov.in/s30f46c64b74a6c964c674853a89796c8e/uploads/2022/11/2022112351.pdf
